Barton's Boy Scouts.

The organization of Boy Scouts, under Ray Underwood as Scout Master, and now composed of 16 of our boys, is in a very thriving condition. The members are now divided into two patrols of eight boys to each patrol. Of the first patrol George Carter is the leader, while Roy Ryder leads the second. During the past winter, meetings have been held at the club house but one of the cardinal principles of the organization is life in the open, and tramps are being planned for the summer by the scout master and the boys. There is no club or organization which appeals to real manhood in our boys, like being a member of the Scouts, where he may learn woodcraft, camp-craft and a general knowledge of outdoor sports. Elementary astronomy, mineralogy and bird and animal life are also being taken up, as well as a knowledge of trees and woods. The boys who belong to the Scouts here are really members of the great national organization and the Patrol boys have passed the "tenderfoot" examinations of the national body. There are three grades of scouts, called the "tenderfoots," and the 2d and 1st grade Scouts. The tenderfoot examinations require that the boys shall have a general knowledge of our flag, and what the stars and stripes mean, its origin and when and where first used. They must also be able to tie all useful knots and to know the Scout oath and the Scout laws. The badge of the Scouts is a symbolical of the craft, having for its points: Scout-craft, Wood-craft, Patriotism and Chivalry. In this wonderful organization, signaling is taught by the Morse code, first aid to the injured and personal and public health and life saving. The Scouts have been attending church in a body of late and seem to be in dead earnest about everything they do. You must have noticed the improved marks of civility in our boys, whenever you meet them on the street and a much more general doffing of hats and pleasant good mornings. It is certainly a splendid thing for the boys, and of much value to the older people, whose manners may be a trifle lax. A great deal of credit is due Mr. Underwood for perfecting the organization here and for his untiring efforts in behalf, not only of our boys, but through them of every person in our town. A camping trip is being planned for June by the Scouts, and many of them are very anxious to earn a little money for outfitting and expenses. They are willing to work for this money, and if you find any odd jobs that a good live boy can do, just ask Ray Underwood to provide the boy and you will find an earnest willing worker and thereby be aiding one of the best causes which has ever been brought to your attention.

The character parts were exceptionally well taken, the costumes good and it was in every way a credit to each member of the talent. The dance was well attended.

The commissioner of agriculture, E. S. Brigham, of St. Albans, was in Newport recently assisting with the organization and plans for the Seed Potato Growers' association. There are now about thirty farmers in the Seed Potato Growers' association. They are located mainly in the vicinity of Newport, Brownington and Greensboro. The county agent has held fourteen demonstrations for home fixing of fertilizer, with a total attendance of about 110 farmers. The quarterly advisory council meeting of the association was held at Hotel Barton, Barton, Tuesday, May 11th.

The Mahanabee Camp Fire.

On Wednesday evening, May 12, the Gem theatre, 8.15, the Camp Fire Girls will hold an entertainment consisting of recitations, piano and vocal numbers. For the benefit of those who are not familiar with the purposes of the institution, we would say—(from the manual):

"Camp Fire Girls is an organization of girls and women to develop the home spirit and make it dominate the entire community. * * * It is a means of organizing a girl's daily home life. It shows that romance, beauty and adventure are to be found on every hand and in wholesome ways; that the daily drudgery may be made to contribute to the beauty of living. It gives boys and girls wholesome interesting things to do together. It deliberately intends to promote happy social life. * * * It interprets daily things in terms of poetry, symbolism, color and imagination. Each campfire must select a name and symbol and our girls have chosen the Indian word, Mahanabee, meaning the Swan, symbolic of beauty, grace and purity. One of the chief aims of the club is to teach the girls to work together, to help and learn from each other. Perhaps your daughter has advantages in the home that another girl has not. Should you not be very happy to have her help other girls to a fuller knowledge of them? The watchword is: Wohelo, meaning Work, Health, Love. The symbol is fire. The forms of recreation are planned to bring the girls into the great out-of-doors into closer touch with the deep heart of nature and thus to expand their hearts and minds, as well as their lungs to greater health and vigor. We have received our charter and we are ready to organize our local campfire. Will you not come out to our entertainment and help us by your support and patronage?"

Marion G. Redfield, Guardian of the Fire.

Margaret, aged five years, and three and one-half years, children of Mr. and Mrs. Ray Tewksbury, were burned to death Sunday forenoon in a fire which destroyed the farm house and barn owned by W. H. Mr. Tewksbury and members of his family went to Newbury to church and left the children at home.

Lyndonville Boys Return.

Cecil Frappind and Walter Stahler, two Lyndonville boys, who left their homes two weeks ago to seek their fortunes, returned voluntarily last week.

Mrs. Emily Baker and daughter, Mrs. Newton Lewis, spent several days with her brother, C. F. Cutler, and other friends here, before returning to Mrs. Lewis' home in Fargo, N. D., where Mrs. Baker will spend some months.

Barton academy baseball team will play Orleans high school at Roaring Brook Park this afternoon and Derby academy on the same grounds on Saturday afternoon. Our boys have quite a snappy team this season and these games should be worth your patronage.

Mention was made last week of the W. C. T. U. convention to be held at Coventry Thursday and Friday of this week. TRAINING CLASS RECEPTION

In their turn the girls of the teacher training class gave their reception to the students, faculty and members of the school board, Tuesday evening, May 4th, the high school gathered at the club house for a very fine time. At first the T. C. girls entertained their guests with piano and vocal solos, followed by the farce, "Miss Prindle's Leap Year," in which the girls did themselves credit. After the entertainment the hall was cleared for dancing and promenading, during which everyone seemed to be enjoying themselves. Music for the dance was furnished by the Victrola, which we have through the courtesy of Mr. Lang, and by Messrs. Burdick and Willson. Even though the training class is the smallest in the academy and consists entirely of girls, they surely are hard to beat when it comes to a matter of this nature.
